## UNITED STATES OF AMERICA

---

Total population in 1995: 269 444 000  
Number of physicians per 100 000 population (1993): 245  
Number of medical schools: 141 (includes schools of osteopathic medicine)  
Duration of basic medical degree course, including practical training: 4–8 years  
Title of degree awarded: Doctor of Medicine (MD) or Doctor of Osteopathy (DO)  
Medical registration/licence to practise: The licence to practise medicine is granted by the individual states. Completion of an acceptable programme of medical education followed by 1–3 years of accredited residency training and an examination acceptable to the licensing board is required. Some states have separate licensing boards for osteopathic medicine. Information concerning special requirements for osteopaths can be obtained from the Federation of State Medical Boards, 400 Fuller Wisser Road, Suite 300, Euless, TX 76039-3855.  
Graduates of foreign medical schools must be certified by the Educational Commission for Foreign Medical Graduates (ECFMG<sup>SM</sup>), 3624 Market Street, Philadelphia, PA 19104-2685, to be eligible to enter accredited programmes of graduate medical education (GME). ECFMG certification is also a prerequisite for licensure to practise medicine in most states and is one of the eligibility requirements to taking Step 3 of the United States Medical Licensing Examination<sup>TM</sup> (USMLE<sup>TM</sup>). Students and graduates of foreign medical schools should refer to the current edition of the ECFMG information booklet for detailed information on eligibility and requirements for ECFMG certification. Graduates of foreign medical schools who are not citizens or permanent residents of the USA must have been legally admitted to the country before beginning graduate medical education.  
Work in government service after graduation: Not obligatory  
Agreements with other countries: The North American Free Trade Agreement has provisions concerning the recognition of professional degrees in Canada, Mexico and the USA.

## VANUATU

---

Total population in 1995: 174 000  
Number of physicians per 100 000 population (1993): —  
Number of medical schools: None  
Medical registration/licence to practise: Registration is obligatory with the Health Practitioners Board of the Ministry of Health (correspondence should be addressed to the Minister of Health, Private Mail Bag 009, Port Vila). The licence to practise medicine is granted to holders of a degree from a recognized medical school provided that their qualifications entitle them to practise in the country in which the degree or diploma was granted. Foreigners may be granted a 2-year licence to practise.  
Work in government service after graduation: Obligatory  
Agreements with other countries: None

## VENEZUELA

---

Total population in 1995: 22 311 000  
Number of physicians per 100 000 population (1993): 194  
Number of medical schools: 9  
Duration of basic medical degree course, including practical training: 6.5–7 years (a period of practice in a rural area is required before the degree is awarded)  
Title of degree awarded: Médico Cirujano (Physician and Surgeon)  
Medical registration/licence to practise: Registration is obligatory with the Ministerio de Sanidad y Asistencia Social, Edificio Sur, Piso 9, Centro Simón Bolívar, Caracas 1010, as well as with the Colegio de Médicos (medical board) of the State in which the graduate intends to practise medicine. The licence to practise is granted by the Ministerio de Sanidad y Asistencia Social to holders of a degree issued or validated by a recognized Venezuelan university. Foreigners may practise only if they have permanent residence status.  
Work in government service after graduation: Obligatory (all physicians must work for a time in a rural area)  
Agreements with other countries: Agreements exist with Bolivia, Colombia, Ecuador and Peru.
